- ✓ Custom Made to suit your tipper
- ✓ Hardwired to fully standalone systems

\$4,500 + GST plus fitting

- **MAXIMUM SUPPORT:** Tarp motion is controlled with compact, high strength torsion springs. Allowing for smooth travel when opening and closing
- **TARP STRETCHING POWER:** Roll Rite's Tarp Stretcher line generates the highest torque in the industry. Up to 330 Nm at cut off, keeping your tarp drum tight!
- **PROVEN DESIGN:** Lightweight Aluminium arms with single and dual setups available
- **RUGGED & INTUITIVE:** Simple passive spring design ensures maximum service life and consistent performance.

Many clients usually ask us about different tarp systems, something that is easy to use and reliable. We always point them in the direction of the electrical auto tarp by Retractable Tarps, because of their power and ability to climb over loads.

Have a look at the video on our website, demonstrating the ease of this auto tarp. Contact Jack for a quote today!
