Introduce equipment finance specialists,
PTR Asset Finance.***

Specialists in Earthmoving | Transport | Mining
Agricultural | Manufacturing Finance

PTR Asset Finance was established in 2003 by Peter Reeves, Tracey Swan and Simon Mell, each of whom hold over 20 years experience in the finance industry. A boutique practice, PTR Asset Finance specialises in Equipment Finance catering to the Earthmoving, Transport, Mining, Agricultural and Manufacturing industries. We pride ourselves on giving our clients a personal, informed and flexible approach to finance.

Our senior brokers and credit officers have no less than 20 years experience in finance. We also have a strong support team to ensure that our clients have a positive experience throughout the term of finance, not just at completion of the application.

With over 14 financiers available to us, we can provide our clients with a variety of financing solutions. Our relationship and business volumes allow us to obtain discounted rates from financiers.

Financing Services:

- Vehicles including prime mover, trucks, cars or buses
- Transport and material handling equipment
- Earthmoving equipment
- Agricultural and Farm Machinery
- Construction equipment

We can also arrange Revolving Finance Limits to cater for future equipment purchases as the business grows...

What our clients say....

"We have used Simon and PTR for a number of years for our business needs and can't say enough. He is super efficient, even to the point of pre-organising finance whenever a special rate comes out just in case we need to use it.....Simon liaises with the suppliers direct and also arranges the insurance through our broker. He does the lot – all we have to do is sign on the dotted line. So happy with the service and staff that we are never tempted to go elsewhere....."
